PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in Python, SQL, Power BI, and machine learning projects. Skilled in data cleaning, exploratory data analysis (EDA), dashboard development, and data visualization using Pandas, NumPy, Matplotlib, and Seaborn. Strong analytical and problem-solving abilities with a passion for transforming data into actionable insights. Seeking a Data Analyst internship opportunity to apply technical and analytical skills in a data-driven environment.

EDUCATION

Bachelor of Engineering in Information Technology

Nepal College of Information Technology

Oct 2022 – Present

PROJECT

Movie Recommendation System

- Developed a hybrid movie recommendation system using content-based and collaborative filtering techniques.
- Processed and analyzed 5,000+ movie records using Python, Pandas, and NumPy for recommendation modeling.
- Built a Flask-based web application with user authentication and personalized movie recommendations

Exploratory Data Analysis (EDA)

- Performed data cleaning, preprocessing, and exploratory data analysis using Python and Pandas.
 - Analyzed sales, inventory, customer, and delivery datasets to identify trends and business insights
 - Developed interactive Power BI dashboards and visual reports for business intelligence and KPI tracking.
-

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript(Basic)

Data Analysis Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Data Visualization & BI Tools: Power BI, Microsoft Excel

Web Technologies: HTML, CSS

Database: PostgreSQL

OTHERS

- Certificate: PostgreSQL, Power BI, Microsoft Excel
- Language: English, Nepali
