PROFESSIONAL SUMMARY

Backend Developer skilled in Django and Python, focused on building clean, scalable web applications. Eager to grow in software development and actively learning Artificial Intelligence and Machine Learning to build data-driven solutions.

EDUCATION

Bachelor of Engineering in Information Technology

Nepal College of Information Technology

Oct 2022 – Present

PROJECT

Movie Recommendation System

- Developed a hybrid movie recommendation system using content-based and collaborative filtering techniques.
- Processed and analyzed 5,000+ movie records using Python, Pandas, and NumPy for recommendation modeling.
- Built a Flask-based web application with user authentication and personalized movie recommendations

E-Commerce

- Built a full-stack e-commerce web app using Django and Django REST Framework
 - Implemented user authentication, product catalog, shopping cart, and order management
 - Developed admin panel for managing products, categories, and orders
-

TECHNICAL SKILLS

Programming Languages: Python, SQL, Django

Data Analysis Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Data Visualization & BI Tools: Power BI, Microsoft Excel

Web Technologies: HTML, CSS, JavaScript(Basic)

Database: PostgreSQL

OTHERS

- Certificate: PostgreSQL, Power BI, Microsoft Excel
- Language: English, Nepali
